

## REMARKS

This is in response to the Final Office Action dated June 20, 2003. In that Office Action, Examiner rejected claims 21 and 25-30. These claims, to wit, 21 and 25-30 have been canceled. Examiner also indicated that he did not enter the proposed amendments to the drawings and the specification and that "Applicant is required to cancel the new matter in the reply to this Office Action". Applicant hereby withdraws and cancels the amendments to the drawings and specification as proposed in the last amendment.

Examiner's allowance of claims 19, 20, and 22-24 is noted with appreciation. These claims remain in the application. It is noted that Applicants have amended claim 20 to correct an obvious error. The amended claim recites that "f" is the focal length of the lenses. The previous recitation that "f" is the focal length of the transmitted light is an obvious error as "transmitted light" cannot have a focal length "f". Rather, only lenses have focal lengths, as is now correctly recited in the claim.

Since all the claims have been allowed, this application is believed to be in condition for allowance. An early notification of same is earnestly solicited. If Applicants' attorney can be of further assistance in this matter, Examiner is requested to telephone the undersigned at: 480-575-0744.

Respectfully submitted,  
Kannan Raj, et al.

Attorney for Applicants  
Theodore E. Galanthay  
Attorney Reg. No. 24,122
